PROJECTS

Insite 2024

Currently designing and building an e-learning course marketplace MVP.

- Designing frontend and components with Figma.
- Building with Ruby on Rails, Stimulus JS, PostgreSQL, HTML and SCSS.
- Using the Devise gem for authentication.

Website Portfolio 2024

Developed a self-designed portfolio website using Figma for design, and built with React, Vite, and CSS for a responsive and modern user interface.

- Showcasing my projects, including Insite, Vloyal and Supper Club.

Vloyal 2023

Vloyal was created to turn paper loyalty cards into virtual loyalty cards storing them in one app, using a QR code scanner to add virtual stamps.

- Acted as the project lead and project manager.
- Managed all merges and resolved all conflicts in GitHub.
- Implemented the QR code scanning feature to the web app.
- Worked on multiple animations using JavaScript.
- Used Figma and CSS to add styling throughout the web app.
- Presented and showcased the final product to 100+ people.

Supper Club 2023

Designed, implemented and shipped to production a clone of Airbnb called 'Supper Club'. The web app enabled users to create and showcase their supper club events, as well as to discover and buy tickets to other supper clubs.

- Lead and managed this week-long project.

EXPERIENCE

Venue Finding
DesignMyNight 2022 - 2023

Demonstrated clear effective communication and consistent fast response times, operating as the intermediary between clients and venues. I converted 12 sales within 8 weeks. Attended multiple networking events, developing client management and networking skills.

Events Sales Manager
Fortem International 2022

Held a client-facing role researching and connecting with new businesses to build a portfolio of clients for global trade shows run by Fortem International. Developed skills in sales, business development and client relationship management.

Property & Land Agent
Ideal Land 2019 - 2021

Bought in £7M worth of property deals between 2020-2021. Managed the office and day to day business, including setting up and updating the website, and building the Company LinkedIn profile from 200 to 1,300 followers within a year. My responsibilities included;

- Leading searches for land and properties, monitoring and updating the databases.
- Drawing up contracts for deals including NDA's, Retention letters and Heads of Terms.
- Building relationships with new and current clients, as well as networking with industry professionals.
- Arranging GDPR and AML training for the company and managing the continued use of these practices.

SUMMARY

Over the past year and a half I have had a career transition to pursue my ambition to work in software development. Last year I joined the Le Wagon Web Development Course in October and graduated as a Full Stack Developer. Since graduation I have been freelance, working on small projects and collaborating/networking with fellow developers. Now I am eager for a more permanent role where I can develop and leverage my technical expertise, problem-solving abilities and communication skills.

SKILLS

Web Application Development

Problem Solving	Teamwork	Organisation

React	Ruby	Ruby On Rails	JavaScript

HTML	CSS	SQL	Git/Version Control

Heroku	Figma	GitHub	Bootstrap

EDUCATION

Web Development
Le Wagon 2023

- 9-week full-time intensive web development bootcamp, accredited by BCS.
- Learned and used HTML, CSS, Bootstrap, JavaScript, SQL, Git, GitHub, Figma, Heroku and Ruby/Ruby on Rails.
- Conceptual learning included OOP, MVC, APIs and Version Control.

Business Entrepreneurship
University of the West of England 2017 - 2018

- Completed year 1 achieving a 2.1.
- Received ILM: Level 3 Award in Leadership & Management.

A-Levels
Emanuel School 2014 - 2016

- Mathematics, Economics, Business Studies & Geography.

CERTIFICATIONS

Ruby, JavaScript, HTML, CSS

Completed a certification course for Ruby, JavaScript, HTML and CSS provided by Codecademy.
